
BuyDesign will help you drive efficiency, boost productivity and save time and costs as your trusted external design and product development resource.

The business of design

“
BuyDesign is a digital platform that transforms the way designers, retailers, brands and manufacturers connect and collaborate.
 ”

Good design drives business success because engaging designers fosters creative thinking, regardless of company size.

Having spent 30 years in the industry, I know that many brilliant ideas are never presented to the right person, buyer, brand or manufacturer. BuyDesign makes it easier to find the correct audience for designers' work and brings their best original ideas out into the spotlight.

Our mission is to support buyers and designers, both commercially and creatively, in the development of original ideas in a transparent and secure relationship.

Theo Williams, Founder of BuyDesign

Save time and costs, drive efficiency and productivity. BuyDesign will support you as your external design and development resource.

BuyDesign improves the efficiency of the product development process by connecting stakeholders and ensuring greater transparency and traceability.

BUYDESIGN®

“ Finally, with BuyDesign, there is a platform which allows the different actors of the design world to be connected. ”

Aldo Cibic

Aldo Cibic, founder of Cibicworkshop, is an influential Italian designer known for co-founding Memphis. His projects have been exhibited at Venice Architecture Biennale and his work focuses on community and place design.

He holds an honorary professorship at Tongji University and his designs are showcased in renowned museums worldwide.

BuyDesign provides you with the tools and support to optimise your collaborations, ensuring that your innovative ideas are effectively brought to the marketplace.

We are challenging the process of connecting, creating and making. Our platform streamlines this process and enhances collaboration, allowing you to be more focused and more efficient.

Creating opportunities to connect, collaborate and create for brands, retailers and manufacturers.

Connect

Discover the right designer for you.

Discover and connect with international designers and their original ideas. Create mood boards within your studio with original product ideas from designers.

1

Create

Create briefs and receive pitches.

Brief individual or multiple designers at once or create open-call briefs to all. Receive direct pitches to your online studio and review with your teams.

2

Collaborate

Collaborate with designers in your online studio.

Access all necessary tools directly. BuyDesign is your design hub - manage designers, products, boards, briefs, pitches and contracts all in one place.

3

Trust

Upload your T&Cs and sign online.

In your online studio, you can upload, save and sign multiple agreements between you and the designer. Negotiations can occur via chat and messaging. You cannot see any other business activity.

Why BuyDesign

Brands & retailers

The need

A pipeline of innovative and exclusive products to differentiate themselves in an increasingly competitive market.

Access to manufacturing partners that provide quality, innovation and value.

Agility in product offering to respond to rapidly changing customer demands.

Challenges

Internal design resource comes at a cost and design/style diversification can be a challenge.

Discovering, establishing and managing relationships with external designers can be costly and time consuming.

Why BuyDesign

With BuyDesign, you have access to a global pool of diverse, professional, talented designers that can be flexed project-by-project.

We provide streamlined and integrated online tools for briefing, negotiating and creating contractual agreements with designers.

Manufacturers

The need

It can be difficult to gain access to new markets and customers to enable growth. Manufacturers can also sometimes lack creative input to offer customers market-leading products.

Challenges

A lack of expertise, resources and contacts can hinder the development of their exclusive designs.

Cultural and geographical barriers can pose challenges; manufacturers are often located in different parts of the world from their customers, making it challenging to identify and communicate with designers and potential new clients.

There are limited opportunities to showcase their value proposition to potential new clients.

Why BuyDesign

BuyDesign enables manufacturers to connect and showcase their capabilities to a global audience of selected buyers and product development teams from brands and retailers.

We provide direct access to a global pool of selected designers and the ability to develop their design products through a simple, secure and time-efficient process.

“
BuyDesign is a platform that can change the dynamics of the relationship between designers and clients to their mutual benefit.

Designers

The need

Connection, visibility and transparency with key personnel within businesses.

Challenges

Directly approaching businesses is time-consuming. There is a risk that original designs shared outside of a secure environment may result in them being copied.

Why BuyDesign

BuyDesign enables designers to reach, showcase and pitch their original ideas to a global audience of interested retailers, brands and manufacturers.

The platform allows registered designers to respond directly to briefs or open calls with design proposals, fostering secure and transparent creative and contractual relationships.

3

What the experts say

“ Unlike the architectural sector that has set contract terms and stages, the design sector has always had an opaque structure for collaboration that is a drag on the business of design and manufacturing. ”

“ BuyDesign is a brilliant innovation in breaking down these barriers and simplifying the process of commissioning design. ”

Tom Lloyd
